**YOUTH AND FAMILIES:** Campus Connections is a 12-week program held one evening per week from 4:00pm to 8:00pm at the University of Colorado Colorado Springs in Columbine Hall. Campus Connections offers one-on-one mentoring for community youth, typically referred from the juvenile justice system, schools, and other youth service providers. Each week youth have the opportunity to obtain **assistance with academic support, explore the beautiful UCCS campus, enjoy a nutritious family-style dinner, and most importantly, build healthy relationships, practice pro-social skills, and participate in enriching activities.**

### Benefits of participation:

- Increased school attendance
- Decreased alcohol and marijuana use
- Fewer discipline referrals
- Increased focus on high school graduation and career planning
